

# SmartCompliance<sup>®</sup> First Aid Cabinets

## Meeting and Exceeding the Industry Standard

**Be Smart. Be Compliant,** with ANSI Z308.1-2021 standards and federal OSHA requirements with kits that keep your first aid in place. Based on Federal OSHA Regulation Standard, "Adequate first aid supplies shall be readily available." OSHA points to ANSI to establish the minimum performance requirements for first aid kits and their supplies.

### Benefits Of Being Smart

The SmartCompliance cabinet SmartTab<sup>®</sup> ezRefill System is a simple but effective way for reordering and restocking, revolutionizing the replenishment process making it easier than ever to stay compliant. As supplies are used, SmartTab ezRefill reminder tabs notify you when it is time to reorder supplies and puts reorder information at your fingertips. SmartCompliance cabinets make restocking quick and easy, with patented snap-in boxes. Save up to 50% over van services and easily monitor supplies to buy only what you need when you need it.

### Did you know you should be checking your First Aid Cabinet weekly to ensure compliance?

Our SmartCompliance first aid cabinets, when filled, meet ANSI Standards/OSHA Requirements, and you can help ensure compliance by using our SafetyHub App to restock your First Aid Kit. Avoid costly OSHA fines with the SmartCompliance solution.

SmartCompliance refills follow ANSI first aid color coding. By following this standardization, recognizing first aid items in an emergency is made quicker and easier.

- **Yellow**, Bandages
- **Blue**, Antiseptics
- **Red**, Burn Treatment
- **Orange**, Personal Protection Equipment
- **Green**, Miscellaneous

### Identify the Correct Cabinet for your Business

ANSI 2021 introduced two classes of first aid kits.

**Class A** kits with contents designed to deal with most common types of workplace injuries.

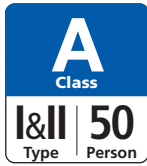

**Class B** kits with a broader range and quantity of supplies to deal with injuries in more complex or high-risk environments.

SmartCompliance offers both Class A and Class B kits and allows customers to order the supplies they need as they run out, reducing waste and allowing users to track their First Aid spend.
