

## PIG® SpillBlocker® Rough Surface Dike

PLR230 Ideal For One-Time-Use Emergency Spill Response, One 2" W x 10' L x 2.25" H Section

Our Rough-Surface Dike stops spills on asphalt in their tracks with a liquid-tight tacky bottom layer that seeps into surface cracks.

- Tear-resistant top layer and a super-tacky bottom layer create a tight, liquid-proof seal on rough surfaces
- Bottom layer fills into surface cracks to form a liquid-tight seal
- Fast protection for when a spill is heading right for your drain on a rough surface; just set dike down with sticky side away from surface, turn dike over and press into place
- Intended for one-time, limited term use; ideal for containing hazardous or other liquids on rough surfaces
- Confines and diverts fluids without absorbing them, making cleanup simple
- 2.25" height contains spills up to 2" deep
- Polyurethane material resists water, oils and many chemicals
- High-visibility yellow top color draws attention to spill for increased safety
