# OUR HISTORY

The Leading Innovator in  
Liquid Applicator Technologies  
for over 130 Years!

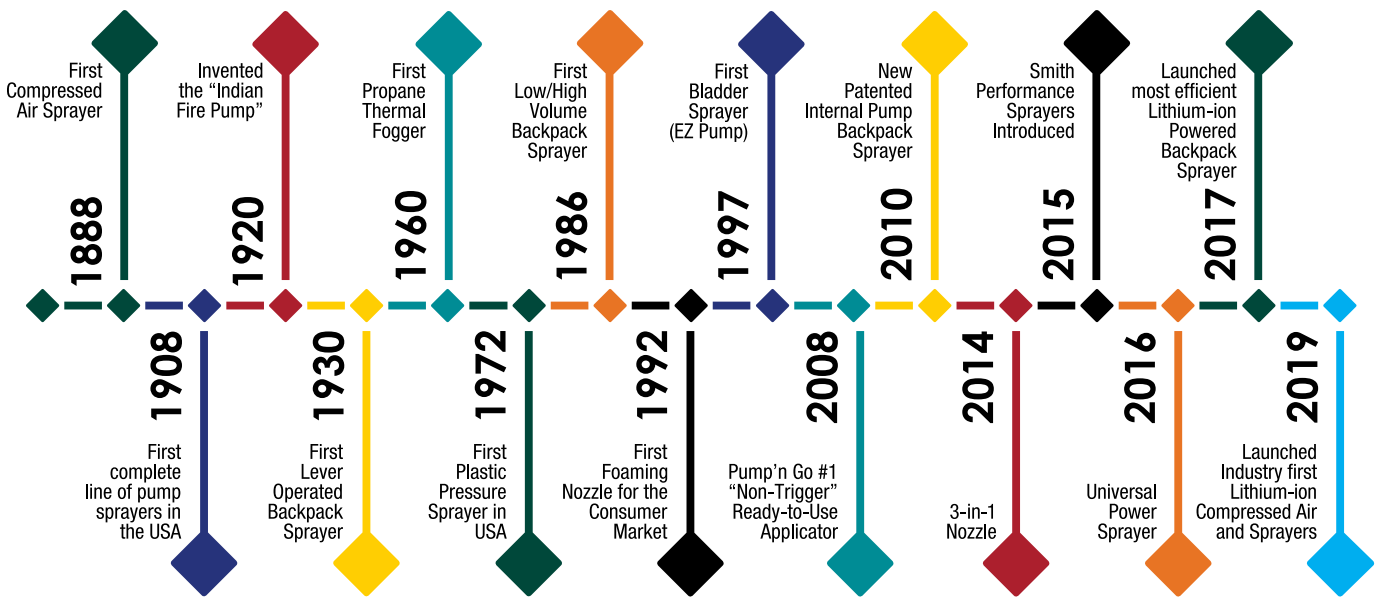

THE FOUNTAINHEAD GROUP

Ever since we introduced the first compressed air sprayer in 1888, we've dedicated ourselves to creating products that make consumers' lives easier. Over the years, we've continued to build our legacy as the innovation leader in liquid applicator technologies with numerous category leading introductions.

Today, we're proud to offer only the highest quality pump sprayers, backpack sprayers, mosquito foggers and more for home and professional use. Our sprayers are sold under the Roundup®, Smith®, Field King®, Indian®, Husqvarna®, and Scotts® brands, while our foggers are sold under the Black Flag®, Burgess®, Cutter® and Repel® brands.

Our vision is simple: the best performance for your money. That's kept us on top for over 130 years...and we're as confident as ever in the future. We thank you for your business and look forward to serving you for the next 130 years!

## A TRADITION OF INNOVATION

PUMPLESS SPRAYERS with

# PUMP ZERO™ TECHNOLOGY

See page 16

See page 7

With faster flow rates, consistent output pressure and no pumping, our Professional Battery Powered Sprayer line with Pump Zero™ technology revolutionizes the compressed air sprayer industry. For use by both professionals and the everyday DIYers, this lithium-ion powered sprayer will save the user time, money and energy. The rechargeable battery, built into the pump handle, enables the user to spray up to 24 gallons of both liquids and wettable powders on a single charge.

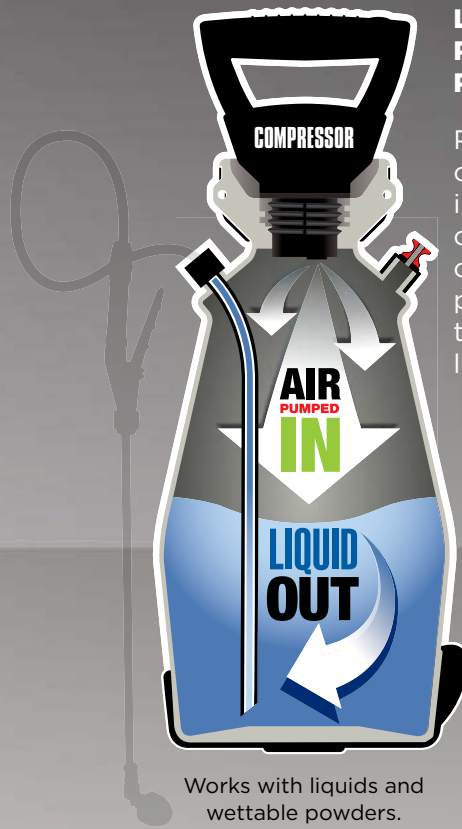

See page 9

# HOW PUMP ZERO TECHNOLOGY WORKS

## PUMP ZERO LITHIUM-ION POWERED PUMP HEAD

Pulls and captures air into tank creating constant pressure that forces liquids out.

Works with liquids and wettable powders.

**Product #:** 184053

**Pack Qty:** 6

**UPC:** 8 4168800573 0

**Description:** Fits Roundup® and Scotts® Home & Garden Sprayers. Stream, fan, cone and foam settings. Viton® seals.

# The Only Nozzles You Need

Around the Home and Garden.

THE FOUNTAINHEAD GROUP

## 3-in-1 Nozzle

With a quick turn of the dial, the proprietary **3-in-1** nozzle takes you from one spray pattern to another.

With only one nozzle for all of your projects, there is no need to store extra nozzles and accessories.

### ERGONOMIC Grip

Allows you to keep your hands away from the nozzle tip while adjusting, keeping your skin and clothing safe from chemical exposure.

## 4-in-1 Nozzle

Innovative **4-in-1** Nozzle with foaming feature - Adjusts from Foaming to Fan to Cone to Stream spray patterns.

## ONE NOZZLE

3 Spray Patterns. Any Project

## 4-in-1 nozzle with FOAMING FEATURE

### FAN spray Decks & Siding

Fan-shaped spray pattern quickly and easily covers large areas like decks, siding, and concrete walkways.

### STREAM spray Weeds & Pests

Creates a fine stream spray pattern for spot treating weeds and penetrating cracks and crevices where insects hide.

### CONE spray Flowers & Vegetables

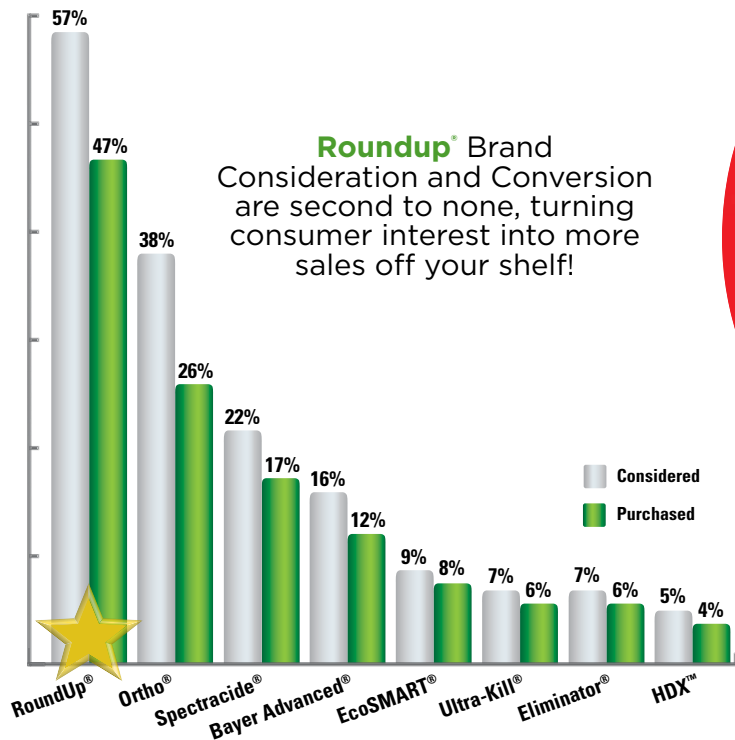

Creates a cone-shaped spray pattern to water and fertilize your flowers and vegetable plants.

# #1 BRAND IN HOME & GARDEN SPRAYERS

Our best selling home & garden line offers unsurpassed value, quality, and brand strength.

**SMITH**<sup>™</sup>  
PERFORMANCE SPRAYERS

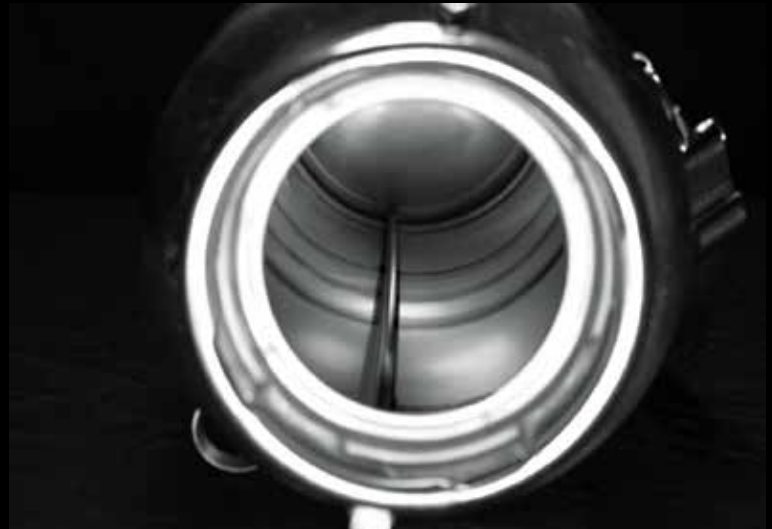

**Built to Work  
as Hard as  
You Do**<sup>™</sup>

Built to withstand harsh environments and even harsher chemicals, our industrial construction series is essential for any contractor. Each product is fit with chemically resistant seals and appropriate components specifically designed for contact with concrete chemicals.

## **MORE** CHEMICALLY COMPATIBLE

**Stainless Steel** tank, pump barrel, and dip tube. No need for epoxy coating that will peel over time causing pin holes to develop.

**Pressure Relief Valve**  
A safety feature to keep the chemical where it belongs, in the tank.

**Welded Stainless Wand Holder** for durability and dependability. When lifting the tank the wand won't fall through!

## **MORE** SAFETY FEATURES

**S103EX**  
STAINLESS STEEL  
& VITON® EXTREME™

**Viton® Extreme™  
BLUE SEALS**  
mean maximum  
chemical resistance.  
Easy to replace.

**S103EX**  
with **Stainless Steel  
Wand and Shut-Off**

- Toughest chemical resistance
- Best regulatory compliance
- Longest-lasting seals

**S103EX** is ideal for low VOC sealers, curing compounds, releasing agents, acetone, oils, and water -or solvent- based chemicals.

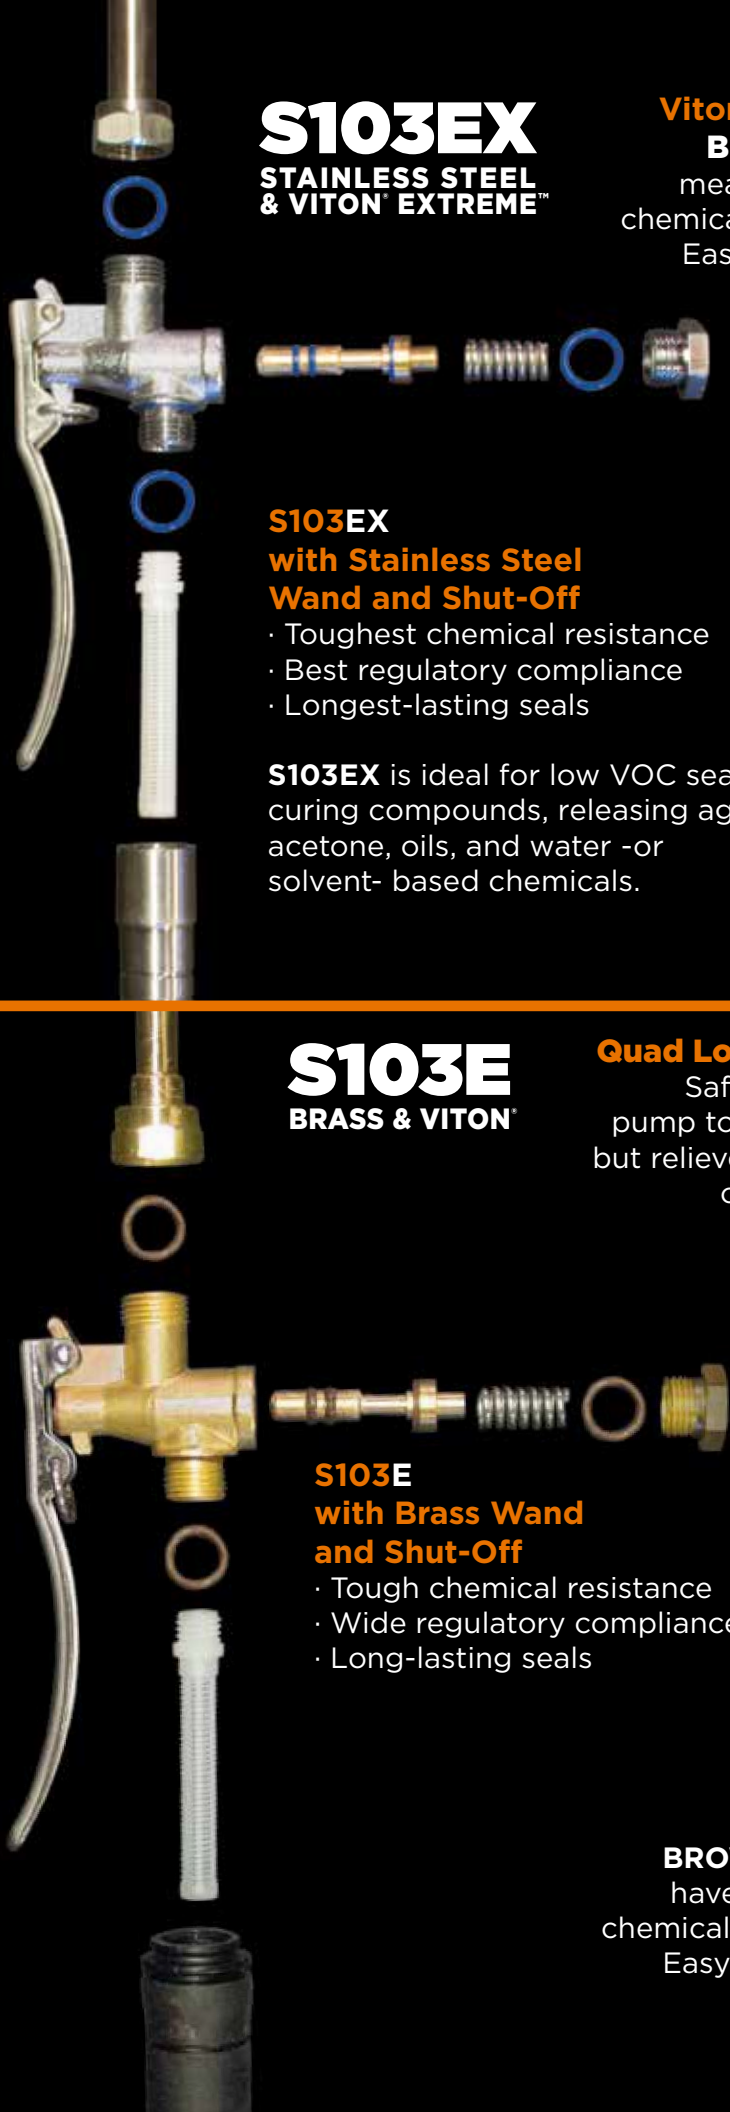

**S103E**  
BRASS & VITON®

**Quad Locking Top**  
Safely secures  
pump to tank body  
but relieves pressure  
over 85 PSI.

**S103E**  
with **Brass Wand  
and Shut-Off**

- Tough chemical resistance
- Wide regulatory compliance
- Long-lasting seals

**Viton®  
BROWN SEALS**  
have long-term  
chemical resistance.  
Easy to replace.

# INDUSTRIAL & CONSTRUCTION

## REGULATIONS REQUIRE THE RIGHT SEALER SPRAYER!

Federal, state, and local regulations present a complex set of requirements for concrete chemicals. Smith Performance® offers sprayers that are compatible with the widest range of regulations as well as chemicals. Additionally, for water-based construction chemicals, Smith Performance® recommends the use of poly sprayers like the R301 to help achieve optimal results while protecting your bottom line.

Stainless steel sprayers like the S103E and S103EX, are ideal for harsher chemicals that are commonly used in concrete preparation and sealing applications. However, it is very important a user selects the correct sprayer to coincide with the type of chemicals regulated in certain regions.

Below, a map of the U.S. and Canada shows VOC regulations by selected regions for common concrete chemicals.

The S103E Sprayer can be used in all states for products like release agents, but for concrete sealers or other common chemicals that fall within the Low VOC highlighted areas, it may not be the right choice. Sealers in the Low VOC areas (Non Gray area in Map) may contain Acetone or TBAC which will cause standard Viton® seals to swell and limit the life span of your product.

The S103EX provides the widest compatibility for regulations because it adds Viton® Extreme™ seals and a stainless steel wand for maximum resistance to harsh chemicals. This is the best choice for situations involving low VOC solvents that may contain Acetone or TBAC and where the most versatility is desired.

- OTC Phase I States
- Currently follow USEPA AIM VOC rules
- CARB SCM, except California Coast
- SCAQMD rule 1113
- LADCO - Lake Michigan Air Directors Consortium
- CEPA/EC - Canada Environmental Protection Agency/Environment Canada
- Utah Administration Code rule 307

## CONCRETE SPRAYERS

190448

### Smith Performance® Stainless Steel Concrete Sprayer

- 3.5 gallon capacity AISI-304 grade stainless steel tank (no need for epoxy coatings) built to withstand harsh concrete chemicals along with rugged transport and use.
- Four prong locking mechanism secures the pump tightly against an internal O-ring and also prevents over compression.
- Faster, easier repair - pump seals can be changed within minutes, which equals less downtime.
- Pull button pressure release valve safely releases internal pressure prior to opening the tank.
- Brass, 24" wand, and shut-off with Viton® seals for long-term chemical resistance.

MADE IN USA

### Pressure Relief Valve

vents at 42 PSI to prevent over compression.

### Stability

Tear-drop shape creates a lower center of gravity to keep the base stable and less likely to tip. Includes built-in nozzle protection.

### Long Reach Wand

21" poly-lined stainless steel wand.

# SMITH CONTRACTOR™

## VALUE AND FUNCTIONALITY

**Smith Contractor™ Sprayers** are outfitted with durable, professional level components in critical areas to deliver performance and value. These sprayers are designed to build higher pressures and deliver spray performance while utilizing cost effective poly components.

### Smith Contractor™ Sprayers

- Versatile sprayer designed not only for lawns, but also for commercial cleaning, sanitizing, and applying harsh chemicals.
- Premium, commercial grade shut-off with comfortable grip; lock-on feature; and easy-to-clean, in-line filter.
- 21" poly wand with Viton® seals throughout pump and shut-off for long-term resistance to chemicals.
- Pressure release valve helps prevent chemicals from getting on you before opening the tank.
- Includes 4 nozzles for ultimate versatility: poly adjustable, brass adjustable, and 2 flat fans.

# FOGGERS & INSECTICIDES

While various disposable sprays and candles may repel mosquitoes for a short period of time, allowing them to return, a re-usable fogger reaches mosquitoes where they hide and kills them on contact. Enjoy a mosquito-free evening without having to spray yourself or your clothing! Manufactured in the USA for over 50 years.

**HOW DOES IT WORK?** The secret to fogging is in the microscopic particles it produces, up to **7 times** finer than mist. When applied before dusk or dawn, the fog floats and penetrates deep into landscaped areas where mosquitoes hide - killing on contact and creating a mosquito-free zone.

**5 MIN**  
FOG GONE...MOSQUITOES GONE

People and pets may enter the treated area as soon as the fog disperses with no offensive residual odor.

One application protects against mosquitoes for hours.

Treats an average 5,000 square foot yard in less than 10 minutes.

## TIPS FOR EFFECTIVE FOGGING:

Always let the fogger preheat for at least 2 minutes prior to use. With the wind at your back, pump trigger every 3-4 seconds to produce a white fog.

- If liquid is coming out of the fogger, squeeze the trigger less often.
  - If fog is yellow or brown in color, squeeze trigger more often.
- Apply deep into base of trees and shrubs and let the fog drift through the foliage.

**Note:** Always stand upwind from the fog.

# Burgess<sup>®</sup> THE ORIGINAL THERMAL FOGGER

16443652N

## Burgess<sup>®</sup> Propane Fogger

- The same effective system used by professionals to kill mosquitoes.
- Kills and repels mosquitoes and biting flies for up to 6 hours.
- Treats an average 5,000 square foot yard in less than 10 minutes.
- Everyone can enter the treated area as soon as the fog disperses (typically less than 5 minutes).
- Propane powered making the fogger completely portable. Compatible with a 14.1 oz. tall style (sold separately).
- Use only with Black Flag<sup>®</sup>, Cutter<sup>®</sup>, or Repel<sup>®</sup> branded fogging insecticides.

# SUPPRESSING & PREVENTING WILDFIRES SINCE 1925

The Indian Fire Pump has established a name of its own throughout the Fire Service and continues to be the most recognizable name in the wildland fire arena.

### FP200 Used on FER500, 90G, 90S

- All brass components, and built to outlast any competitive pump.
- Primes up to **8X quicker** than competition, delivering more water, faster.
- Larger cylinder provides easiest pumping and bind free operation.

### FP100 Used on FSV500, DBL500, FER501

- All brass components, and built to outlast any competitive pump.
- Primes up to **8X quicker** than competition, delivering more water, faster.
- Larger cylinder provides easiest pumping and bind free operation.
- Padded Grip for additional comfort.

### FPG100 Used on FSV500PG

- All brass components, and built to outlast any competitive pump.
- Primes up to **8X quicker** than competition, delivering more water, faster.
- Larger cylinder provides easiest pumping and bind free operation.
- Padded Grip for additional comfort.
- Solid brass pistol grip for increased leverage & improved ergonomics.

Rated For  
**0.75**  
**GAL/MIN**

**USFS Approved  
FP100**

**Padded Closed Cell Straps**  
reduce fatigue and resist moisture

**Wedge Shape**
