4-Drum Forkliftable

6-Drum Forkliftable

**4-Drum Forkliftable
with Ramp**

**Model
SST-IBC**

Left: Positioned lengthwise with IBC moved back, there is sufficient room to hang pail shelf on inside of sump (one decking panel is removed).

Below: Positioned widthwise, Pail Shelf can be hung outside of sump, allowing extra storage space on deck.

**Model
SST-IBC**

**Model
SST-IBC-2**

IBC Containment & Dispensing Station

10,000 lbs. Capacity

- Heavy-gauge steel construction
- 400 gallon sump capacity
- Removable steel grating deck panels
- Includes drain plug and grounding screw
- Helps comply with EPA requirements

Single IBC Unit

- Three-piece steel grating deck is 29" high
- Convertible deck for Internal dispensing within sump area
- Included pail holder shelf attaches on inside or outside of sump

Model No.	Overall Size	Capacity	Wt. (lbs.)
SST-IBC	51"W x 76"L x 29"H	400 gal	625

Double IBC Unit

- Four-piece removable grating deck is 23" high
- Includes two removable pail holder shelves

Model No.	Overall Size	Capacity	Wt. (lbs.)
SST-IBC-2	51"W x 99"L x 23"H	400 gal	702

10 YEAR GUARANTEED NOSE PLATE

12" deep nose plates are structurally reinforced for extra strength and longer life. Heavy-duty stair glides are flattened and extended under the nose plate, which virtually eliminates breakage.

Industrial Strength Hand Trucks

800 lbs. Capacity

- 8"D x 14"W nose plate
- Four curved ribs with vertical center strap
- Heavy 1.05" 14 gauge tubular steel for added strength to frame and stair glides
- Extra-high 29" stair glides
- Zinc plated "D" axle is interchangeable in tri-hole axle bracket

Welded Steel Workbenches with Back and End Stops

Up to 5000 lbs. Capacity

- Double reinforced, 12 gauge steel top
- Corner gussets for additional reinforcement
- 1-1/2" raised edge on back and sides
- Also available with 16 gauge pegboard or louvered panel
- All-welded construction

Legs Folded

Continuous Width Production Tables

3000 lbs. Capacity

Ideal for assembly lines. No stringer means working from both sides!

- 12 gauge steel tops
- Available in 30" or 36" depths
- Features reinforced understructure and strengthening gussets
- Tops come in 4, 5, and 6 ft. widths
- Legs and gussets bolt to table-tops
- Hardware included

Starter Kit Includes:

- (1) Table top, (2) leg sets, and (4) gussets

Add-On Kit:

- (1) Table top, (1) leg set, and (4) gussets

WSE-Starter

Wheel Selection Guide

Polyurethane Wheels

Load Capacity Range:
300 – 1,000 lbs.

Characteristics: Easier rolling for higher capacities, long-lasting, chemical resistant, non-marking and quiet operation.

A polyurethane tread is superior for industrial, warehouse, and institutional applications with a great combination of easy rolling and maneuverability under heavy load capacity while able to quietly roll over rough floor surfaces.

Mold-On Rubber Wheels

Load Capacity Range:
500 – 600 lbs.

Characteristics: Better load capacity, long-lasting, cushion tread, absorbs shock and vibration, floor protection and quiet operation.

Rubber tread vulcanized to metal core. A good combination of load capacity and cushion tread that quietly rolls over rough floors. A great wheel choice for heavy industrial and warehouse applications.

Pneumatic Wheels

Load Capacity Range:
300 – 400 lbs.

Characteristics: Great cushion ride over rough floor surfaces, best option for traveling over small obstructions or outdoor applications. Best shock and vibration absorption.

An air filled rubber tire on a metal hub is able to easily roll over uneven surfaces and bumps but does require air pressure management. Under heavy loads, the pneumatic tire profile will compress, creating greater rolling resistance. Ideal for handling fragile loads over rough surfaces.

Phenolic Wheels

Load Capacity Range:
900 – 1,250 lbs.

Characteristics: Best rolling for heavy load capacities, long-lasting, chemical resistant, high temperature, non-marking for smooth floor surface.

A solid one piece wheel that is high pressure molded with reinforced fiber-filled phenolic resin. Offers the least rolling resistance on smooth floors, but does not absorb vibration over rough surfaces.

Solid Rubber Wheels

Load Capacity Range:
300 – 400 lbs.

Characteristics: Good load capacity, great for rough floor surfaces, puncture-proof, floor protection and quiet operation.

Cushioned rubber tire that is more stable and easier to roll under heavy loads than pneumatic wheels. These wheels are a rugged, maintenance-free (no air pressure to maintain) alternative to pneumatic wheels.

Flat Free Hand Truck Wheels

Load Capacity Range:
400 lbs.

Characteristics: Wide rubber tread disperses the load better over irregular or softer surfaces. Less tread compression than pneumatic or solid rubber tires and precision ball bearings improve rollability of heavier loads.

Wheel Specifications

Wheel Diameter	Tread Width	Wheel Type	Bearing I.D.	Centered Hub Model No.	Offset Hub Model No.
5	1-1/4	Polyurethane	3/8" Ball	WHMP-05114	-
6	2	Mold-On Rubber	3/4" Roller	WHMS-0620	-
		Polyurethane	1/2" Ball	WHMP-0620	-
8	2	Phenolic	3/4" Roller	WHPL-0620	-
		Mold-On Rubber	3/4" Roller	WHMS-0820	-
		Polyurethane	1/2" Ball	WHMP-0820	-
8	2-1/2	Phenolic	3/4" Roller	WHPL-0820	-
8	2-1/2	Solid Rubber	5/8" Ball	-	WHSP-0825-0
9	3	Pneumatic 2.80/2.50-4	5/8" Ball	WHPN-0830	-
10	2-3/4	Solid Rubber	5/8" Ball	WHSP-1027P-C	WHSP-1027-P
10	3-1/2	Pneumatic 4.10/3.50-4	5/8" Ball	WHPN-1035-C	WHPN-1035
10	3-1/2	Flat Free	5/8" Ball	-	WHFF-1035

		Pneumatic 4.10/3.50-6	1" Roller	WHPN-1235-RB	-
16	4	Pneumatic 4.80/4.00-8	1" Roller	WHPN-1640	-

All sales by Brennan Equipment & Mfg., Inc. ("Brennan") are made subject to the following terms and conditions. Brennan expressly rejects any different or additional terms or conditions contained in any documents submitted by the Buyer. Brennan's provision of credit, acceptance of any purchase order and/or sale of any goods are expressly made conditional on Buyer's assent to these terms and conditions. All orders by Buyer may be accepted only upon issuance of Brennan's sales order acknowledgement.

Except as otherwise agreed in writing signed by Buyer and Brennan, the applicable Brennan sales order acknowledgement – together with these terms and conditions – constitute the entire agreement between Brennan and Buyer relating to the sale of such goods by Brennan. Terms or conditions contained in any document issued by Buyer that in any manner purport to alter, modify, change, suspend, or add to any term or condition contained herein shall be deemed excluded from such Buyer document and waived by Buyer. Brennan and Buyer expressly agree that Brennan may modify these terms and conditions from time to time, and such modifications shall be binding upon Buyer.

PURCHASE PRICE: The purchase price of goods shall be as stated on the face of the Brennan sales order acknowledgement provided. However, if Brennan announces a general price increase, the purchase price shall be revised to include such price increase. Brennan may in its sole discretion increase its selling price predicated upon increases in the cost of raw materials, energy or freight costs.

TERMS: Net 30 Days from date of invoice. All orders are subject to credit approval. Please submit 5 trade references and resale certificate for open account consideration. Credit Card payments are subject to a 3% surcharge. All monies to be rendered in US dollars.

PAST DUE ACCOUNTS: In the event Buyer fails to make payment within terms to Brennan of any amounts due, including any applicable taxes or freight charge, Brennan shall have the right to terminate any Buyer order or any unfulfilled portion thereof, and Brennan may terminate any other agreement between Brennan and Buyer. A Finance Charge of 1.5% per month (18% ANNUAL RATE) may be charged to all past due amounts. Brennan shall have the right to employ a collections agency to collect the balance due, and Buyer agrees to pay all collection costs incurred by Brennan, including its reasonable attorneys' fees.

TAXES: All taxes or other charges levied by any federal, state, municipal or other governmental authority that is required to be collected or paid with respect to the production, sale, or shipment of goods sold to Buyer shall be the responsibility of Buyer. Buyer agrees to pay all such taxes or other charges and further agrees to reimburse Brennan for any such payments made by Brennan.

RETURNS: All returns must be authorized in advance by Brennan. Please call Customer Service for a Returned Goods Authorization ("RGA") number. Custom products cannot be accepted for return. Standard products and colors without options only in quantities of 6 or less within 30 days of shipment date. Returns must be shipped freight prepaid and have a valid RGA number. All returns are subject to a damage inspection and a 35% refurbishing charge (\$100 minimum).

ORDER CANCELLATIONS & CHANGES: For standard items in quantities of 6 units or less, cancellation charges may apply. If cancellation is received before production is scheduled, a flat rate of a \$40.00 cancellation charge may be applied. Once production has begun, we are unable to cancel or change any order. Quantity orders of more than 6 units and custom items are accepted on a noncancelable and nonreturnable basis.

SHIPPING & FREIGHT: FOB Origin University Park, IL 60484 - Freight Collect or 3rd Party Billing - Risk of loss or damage shall be borne by the Buyer and all claims must be filed directly with carrier.

PREPAY & ADD FREIGHT PROGRAM: Order can be shipped prepaid and our discounted freight charges added to your invoice. Freight rate is guaranteed at time of order. We file any damage claims provided shipment is refused or damage noted upon receipt.

DROP SHIPMENTS: No additional charge.

SPECIFICATIONS: If any dimension or specification is critical, it should be verified at time of order placement.

CAPACITIES: All capacities are based on Uniformly Distributed Loads (UDL). Do not exceed load capacities.

WARRANTY: Any product that has been subjected to normal use for which it is intended and is shown to be defective within one (1) year from date of purchase will be repaired or replaced at Brennan's option, provided such defect is reported promptly to the manufacturer. Authorization is required prior to returning.

SUBSTITUTIONS: Brennan reserves the right to substitute the latest superseding design and manufactured equivalent equipment, where interchange ability does not materially affect form, fit or function.

PACKAGING: ALL PRICES QUOTED include standard domestic packaging. An extra charge will apply whenever special packaging requirements are specified; either for domestic, export, or U.S. Government sealed packing, based on the extra cost incurred to fulfill these requirements.

CALIFORNIA PROPOSITION 65:  **WARNING:** This product can expose you to chemicals, including nickel, which are known to the State of California to cause cancer and reproductive harm. For more information – www.P65Warnings.ca.gov.
