

DuPont Personal Protection

Product part numbers

To simplify ordering and inventory management, we developed a simple, logical and intuitive product part numbering system. Using only 16 characters, each part number comprises abbreviations that provide all the information you need.

Base catalog number

The first six characters provide the basic representation of the product.

TY 120 S

Additional product detail

The remaining characters provide additional product detail and complete the full part number.

WH LG 0025 00
