CONTENTS & PRODUCT INFO

For Product Questions and Ordering...

The Oil-Dri® brand has been trusted since 1941. We offer top quality granular absorbents as well as a complete line of oil only, haz mat and universal absorbents including pads, rolls, socks, spill kits and more. As an Oil-Dri distributor, you have the advantage of offering our entire family of absorbent products to your customers.

- COMMITMENT:** Oil-Dri Corporation of America is committed to the continued development and distribution of sorbent products. We provide you with the same commitment to distribution that has made us successful since 1941.
- COST SAVINGS:** We can provide cost reduction opportunities to meet the cross-functional demands of any organization. Our sales force can schedule joint end-user sales calls to provide product education and training which can reduce line items and increase your bottom line.
- SUPPORT:** Our Sales & Marketing staff can supply you with the materials needed to support your sales efforts as a distributor of Oil-Dri products.

Oil-Dri® Is your one-source supplier of absorbent products.

GRANULAR CLAY INFORMATION

Oil-Dri® Premium and Quick-Sorb®

Virtually dust free clay granules. Superior retention.
Shipping Locations: GA, MS, CA and Quebec

SWEEPING COMPOUND

Oil-Dri® Sweeping Compound prevents dust from becoming airborne and resettling, reducing the inhalation of irritable dust while sweeping. Available in sanded, non-sanded, wax based and eco friendly formulas. Ask about co-loading opportunities with clay!

GUIDE TO POLYPROPYLENE

Universal Polypropylene

- Durable and non-shedding
- Quick wicking for fast absorption
- Absorbs all fluids

Oil-Only Polypropylene

- Highly absorbent
- Absorbs petroleum based fluids
- Hydrophobic - repels water

Haz Mat Polypropylene

- Yellow color indicates caution
- Highly absorbent
- Safely absorb acids & bases

Needle Punched Polypropylene

- Use as industrial rug
- Exceptional strength & durability
- Ideal in High Traffic Areas

SOCK APPLICATION GUIDE

- A** Universal Sock - Recycled cellulose filled sock for universal applications – our most popular sock.
- B** Haz Mat Sock – Chemically inert polypropylene filled sock. Safely absorbs aggressive fluids and acids.
- C** Oil Only Poly Sock – Polypropylene filled sock used for petroleum based fluids – hydrophobic.
- D** Cob Sock - Sock filled with corn cob granules. Used for non aggressive fluids – form fitting.
- E** Super Sock - Universal sock filled with expanding polymeric foam – our most absorbent sock.

How do I use Oil-Dri® granular clay absorbents?

Cover the spill with Oil-Dri® and allow the granules to start absorbing. Work in with a stiff broom, shovel, or shoe until all granules come in contact with fluids. Add more product until all of the fluid has been absorbed. Once fluids are absorbed, you're ready for proper disposal.

How do I dispose of Oil-Dri® absorbents?

Oil-Dri® does not give recommendations for disposing of used material, as disposal requirements vary from state to state by the type of fluid that has been absorbed. Contact officials in your municipality or the local or state offices of the EPA for proper disposal procedures. See back cover for regulatory contact information.

What is crystalline silica?

It is one of the most frequently occurring materials on earth and its most common form is sand. Trace amounts are present in Oil-Dri® clay.

Why does OSHA care about crystalline silica?

Airborne dust containing crystalline silica can be a respiratory hazard and has been regulated by OSHA for decades. Workplaces that contain high levels of certain kinds of respirable crystalline silica can be a safety hazard for workers. OSHA recognizes that silica particles that aren't small enough to be airborne are not a problem, otherwise sand beaches would be off limits without wearing full respirators.

What's a "high level" of respirable crystalline silica?

The main focus of OSHA's silica regulations are extremely dusty work environments, such as mineral processing, sandblasting, rock cutting, or concrete work. Typical spill clean up with Oil-Dri on a warehouse floor does not raise issues with the regulation of silica dust.

Is Oil-Dri clay safe for everyday use?

When Oil-Dri® is poured on a spill, only a negligible amount of dust is created and just a fraction of that dust contains crystalline silica. We have conducted tests to calculate average dust exposure and have found that a worker using clay absorbents over an 8 hour shift would be exposed to less than 1/4000 of the OSHA permissible exposure limit. In short, the OSHA regulation does not apply to the normal use of clay absorbents in the workplace.

Then why the warning label?

It's the law! U.S. manufacturers are required to disclose (through labeling) the presence of crystalline silica in industrial products. All Oil-Dri® products have been thoroughly tested and have been determined to be completely safe for their intended uses, as people have been safely using clay-based floor absorbent for decades.

What is meltblown polypropylene?

Simply put, polypropylene resins are melted then blown onto a conveyor as fibrous strands to form an absorbent material that will hold 12-20 times it's weight in fluid.

Why the different colors?

A color coded system was developed by the industry to better understand the waste stream. Yellow sorbents are used for hazardous fluids to indicate caution when disposing. White sorbents will only absorb petroleum based fluids. Grey universal sorbents can be used anywhere.

Did you know?

- The Bureau of Labor Statistics reports that slips, trips and falls are the leading cause of OSHA-recordable injuries, racking up over 152,000 lost work days every year and make up almost 20% of all job-related injuries.
- The average cost of a single slip, trip and fall injury is more than \$20,000.
- 1 in 6 of all lost-time work injuries result from slips, trips and falls with an average of 11 days away from work.
- Slips, trips and falls account for 15 to 20% of all workers' compensation expenses.
- 20 – 30% of people who slip and fall will suffer moderate to severe injuries such as bruises, hip fractures or head injuries.
- According to OSHA, slips, trips and falls cause 15% of all accidental deaths and are second only to motor vehicles.
- OSHA estimates that over six million facilities in the US are regulated under their Subpart D Standards, which require workplace floors to be "maintained in a clean and, so far as possible, a dry condition" (29 CFR 1910.22).

Where can I buy Oil-Dri® products?

For information on becoming an Oil-Dri® distributor, or to find a distributor or retailer in your area, call Customer Service at 800-645-3747.

This is a pig.

Learn the Difference

Pigs are best known for producing pork, ham, and bacon. Oil-Dri Corporation of America is best known for producing the premium quality absorbent clay that has made them a leader in industrial markets since 1941. Oil-Dri® is also a proud supplier of absorbent pads, mats, rolls, socks, spill kits and sweeping compound. For one source to supply all of your spill control needs, look no further. Our business is industrial grade absorbents, end of story.

This is Oil-Dri®.

INDUSTRIAL PLANT APPLICATIONS

Granular Absorbent

Oil-Dri® granular absorbents undergo an extreme thermal process to increase absorption power and minimize dust. Use on oils, coolants, grease, water, and other spills.

Pg. 5

Oil Only Absorbent Rolls

Oil only rolls are available in light, medium and heavy weight materials, and come in a variety of configurations.

Pg. 10

Spill Kits

Our spill kits are available in a wide variety of sizes and include everything needed to handle most spills.

Pg. 15-19

Absorbent Socks

Socks surround spills and prevent them from spreading out onto the shop floor. Available in Universal, Oil Only and Haz Mat.

Pg. 12

Oil Only Absorbent Pads

Oil-only pads are hydrophobic and available in light, medium and heavy duty configurations.

Pg. 10

Sweeping Compound

Sweeping compound cleans as it sweeps away dust and dirt while leaving behind a polished sheen.

Pg. 14

Professional Absorbent Pads

This handy 15" x 5' personal roll is perforated every 10 inches to can easily convert to six 10" pads to suit your clean-up needs.

Pg. 7

Oil-Dri® QuickSorb®

Oil-Dri® QuickSorb® is specially formulated to absorb up to twice as much per pound as traditional granular absorbent. Use on oils, coolants, grease, water, and other spills.

Pg. 5

Universal Absorbent Rolls

Universal rolls can be used for all fluids including acids, bases, oils, hydraulic fluids, and general spills. Available in a variety of weight and configurations.

Pg. 7

Universal Absorbent Pads

Use for all fluids including acids, bases, oils, and general spills. Available in light, medium and heavy duty configurations

Pg. 7

Garage Guard® Roll

This 3' x 5' rug will absorb oils, coolants, grease, water, and other spills – and won't allow liquid to penetrate it's industrial strength poly backing.

Pg. 9

Drum Top Pads

Keep 55 gallon drums clean and neat by absorbing fluids that leak from pumps and dispenser cans. Universal and Oil Only pads available.

Pg. 8 & 11

Oil-Dri® Premium absorbent clay granules are used to absorb oils, mixtures of soluble oils, acids, paints, inks, water and other liquids. Proper use of these products can reduce slipping accidents, hazards, prevent flash oil fires, and keep floors clean and dry. Do not use with turpentine, vegetable oil, unsaturated organic compounds or hydrofluoric acid.

Oil-Dri® Premium Absorbent Clay

The same high quality clay absorbent that the company was founded on in 1941 and made it a leader in the absorbent market today. Oil-Dri® Premium is formulated to maximize absorption and minimize dust.

Oil-Dri® clay absorbents contain trace amounts of naturally occurring crystalline silica – a level far below the OSHA Permissible Exposure Limit and the ACGIH Threshold Limit Value. All products are thoroughly tested and completely safe for their intended uses. Read the Truth About Silica on oil-dri.net.

Oil-Dri® Quick-Sorb® Clay

Made from the same high-quality mineral as our Premium absorbent, Oil-Dri® QuickSorb® has been specially processed to absorb up to twice as much per pound as conventional floor absorbents in half the time. Smaller granules absorb quicker with far less product.

L92889-G65	30 lb. Recycled Paper Granules	Poly Bag	65 Bags / Pallet	GA, MS

Universal meltblown polypropylene material can be used to absorb all types of leaks and spills in high-traffic areas, tool cribs and routine industrial applications. Oils, coolants, solvents and water based fluids pose no problem for this absorbent material. Available with or without cover stock, the strong bonded layers allow fluid to spread through the material quickly for the best absorption rate. Pads and rolls are available in a wide variety of weights and configurations to meet your specific needs.

What is cover stock?

Spunbond cover stock is an ultra-light weight polypropylene fabric that adds an additional layer of strength and durability to melt blown material.

L90694	Reusable Industrial Mats Heavy Weight	36" x 60"	10 mats	Box

Haz Mat PADS, ROLLS, SOCK & PILLOW ABSORBENTS

Made from chemically inert polypropylene, these durable absorbents can handle all types of leaks and spill and are brightly colored yellow to indicate caution during use and disposal. See chemical application guide on page 22 for use with specific chemicals. As with all absorbents, please comply with all local, state, and federal environmental regulations when disposing of this product.

OIL ONLY ABSORBENTS

Oil only pads and rolls are made from highly absorbent meltblown polypropylene with no chemical additives. This material is hydrophobic, meaning that it will repel water and only absorb petroleum based fluids such as hydraulic fluid, gasoline, brake fluid, turpentine and oils. Oil only products are ideal for absorbing floating oils on water and perfect for any outdoor use as they are weather resistant.

In addition to standard polypropylene oil only pads and rolls, Oil-Dri® also offers Track Mat as the ultimate absorbent for high volume petroleum spill. Used mainly in outdoor applications at rail yards, military bases, refineries and steel mills. For capturing petroleum fluids that are floating on water, use boom and bilge socks to help keep our water oil free.

Heavy Duty 3-Step Roll

Works as three products in one – sock, pad or roll.

ITEM#	DESCRIPTION	SIZE	PERF	QTY	PKG
L90503	Bonded w/ Cover Stock	15" x 50' tri-folded to 5"	18"	1 roll	Box

L90910

Drum Top Pads

Keep 55 gallon drums neat and clean with drum toppers. Absorb petroleum based drips and spills from leaking dispensers.

ITEM#	DESCRIPTION	SIZE	QTY	PKG
L90910	Absorbent Drum Toppers	22" Diameter	25 pads	Box

Track Mat

Use non-permeable track mat when refueling locomotives at ready station sites or when greasing the rails. The top black layer is UV resistant, the center layer is highly absorbent and the bottom layer (white) prevents fluids from contaminating the soil and ballast. Available in three sizes.

ITEM#	DESCRIPTION	SIZE	QTY	PKG
L19100	Heavy Weight Track Mat	19" x 100'	2 rolls	Bale
L29100	Heavy Weight Track Mat	29" x 100'	2 rolls	Bale

L90866	Bilge Boom	8" Diameter x 18'	4 Boom	Box

SOCK & PILLOW ABSORBENTS

These cost effective products are a must-have for routine industrial applications. Socks can be used to contain fluid leaks and prevent spills from spreading. They conform to fit snugly in tight spaces and around corners. Pillows are ideal for absorbing steady streams of fluid. Both products are available with various absorbent filling to fit your needs.

Universal Cellulose Sock & Pillow

Filled with 100% recycled cellulose. Absorbs all fluids.

SWEEPING COMPOUND

Oil-Dri® Sweeping Compound prevents dust from becoming airborne and resettling, reducing the inhalation of irritable dust while sweeping. Available in sanded and non-sanded formulas. Made with only the best raw materials for clean, spot-free sweeping. Ships from multiple locations - GA, OH, MS, NJ, MI, WI. Ask about co-loading opportunities with clay!

Oil-Dri® Mighty Sweep

Sanded formula is ideal for unfinished wood and concrete floors. Mainly used in the construction industry, warehouses, boat yards, factories, garages and anywhere heavy-duty cleaning is a must.

GREEN#	RED#	DESCRIPTION	PKG	PALLET	SHIP FROM
L91050MG	L91050MR	50 lb. Sanded (Grit)	Box	48/Pallet	GA, OH, NJ, MS, TX

- Traps dust & dirt within compound
- Prevents airborne dust from resettling
- Prevents inhalation hazard when sweeping
- Leaves behind a polished sheen
- Available in red or green color

Oil-Dri® Ultra Sweep

Non sanded, wax base compound conditions as it cleans. Use for painted and varnished floors, tile, terrazzo, wood, concrete and waxed floors. Great for keeping finished floors looking their best.

CHEMICAL APPLICATION GUIDE

This information is provided as a guide only to the use of polypropylene material (pads & rolls) with specific chemicals. In all cases it is assumed the chemicals in question are at ambient temperatures and pressure and are used in basic state, not in combination or mixtures. Small test sampling by users is always recommended to ensure safe application.
