# DRY ERASE

## Key Performance Indicator (KPI) Boards

KPI Boards are an important tool for communication, learning and performance. They enhance understanding and engagement in various contexts.

Inform employees about Key Performance Indicators (KPIs) such as production and quality targets, schedules and operational progress or challenges.

They can also be used to support 5S Lean/Kaizen activities. These dry erase boards provide a quick and easy way to update metrics and messages throughout the day, month or quarter.

## Ultra Aluma-Lite™

Ultra Aluma-Lite™ features a composite plastic core bonded by two layers of aluminum to form an extremely durable product. Composite aluminum is an excellent alternative to traditional aluminum. It's light-weight (40% lighter than solid aluminum), Eco-friendly, and UL-recognized for "electrical signage" (UL94-VO).

### Key Features

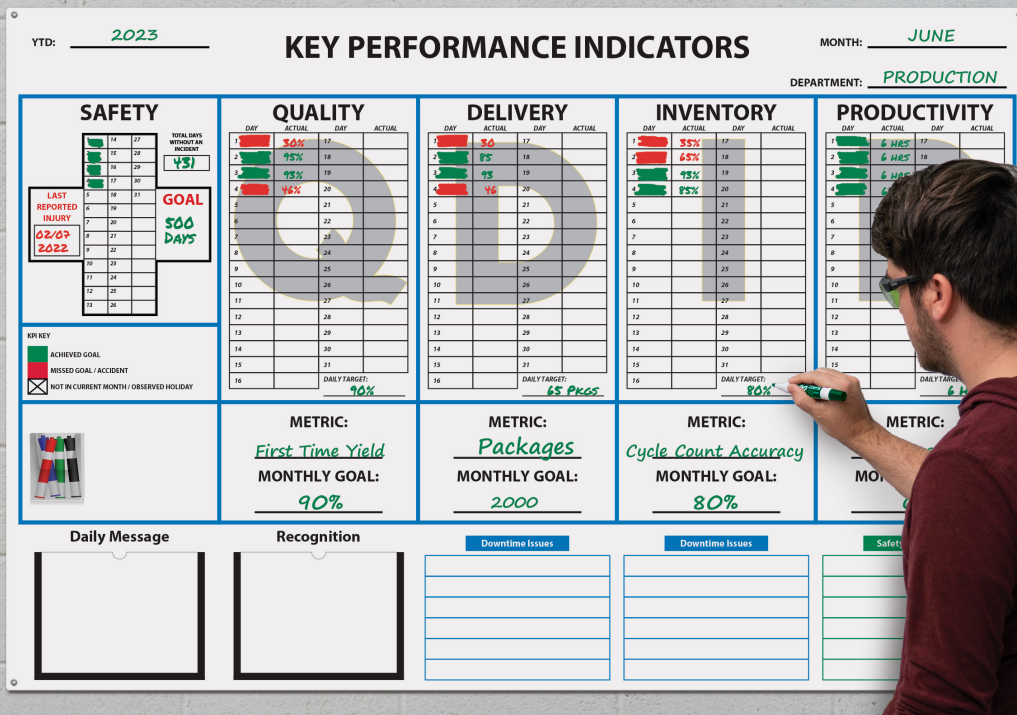

- Corrosion and impact resistant
- Ideal for use with Ultra-Cling™ (see pg 7)
- Stain and scratch resistant
- Service Temperature: -40° to 170°F

### Applications

- Industrial environments
- Manufacturing
- Warehouse & Fulfillment Centers
- Construction

**IN-STOCK**  
Ready to Ship!

## SQDIP & SQCIP KPI-Boards

Dry erase SQDIP & SQCIP KPI-Boards are an effective tool for monitoring and improving the safety, quality, delivery, cost, inventory and productivity of your organization in real time.

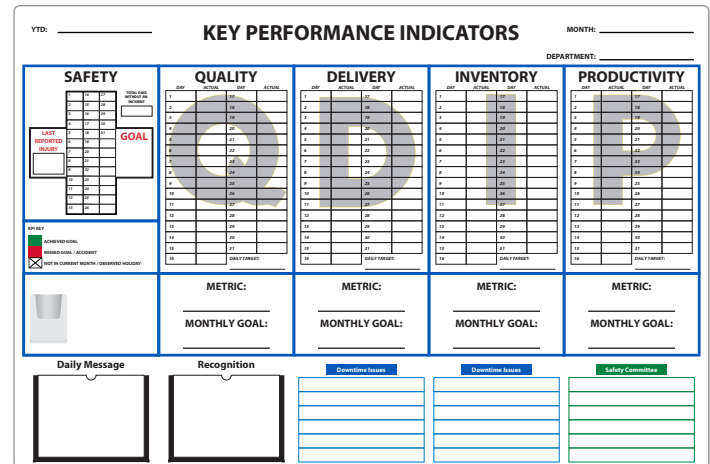

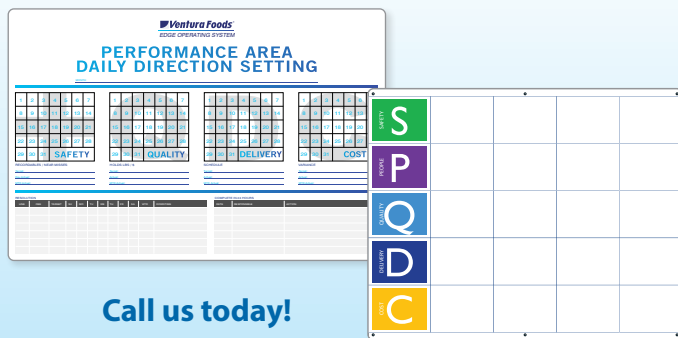

### Key Features

- Dry erase boards available in 2 different designs, SQDIP & SQCIP.
- Includes 2 landscape-style document holders: 8 1/2"H x 11"W.
- Includes 1 dry erase marker and eraser holder: 4 3/4"H x 3 5/8"W x 2"D.
- Board dimensions: 48"H x 72"W, made of Ultra Aluma-Lite™.
- Ideal for use with Ultra-Cling™ markings to visibly provide metrics, track progress, and indicate goals (sold separately).

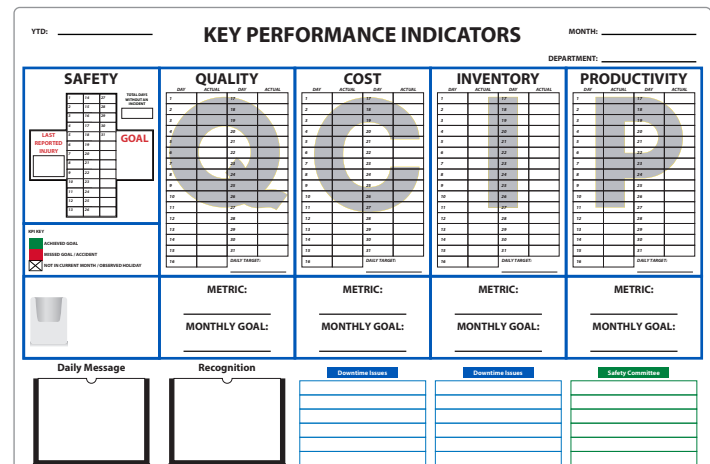

### Benefits

- Increases accountability by tracking progress towards expectations.
- Improves visibility on performance in real-time.
- Drives focus, prioritizing the most important metrics and goals.
- Facilitates communication between team members.
- Visually creates a clear picture of team status.

## Continuous Improvement (CI) KPI-Board

The CI KPI-Board visually displays action items for ongoing processes. Record incremental changes and improvements for products, processes or systems to enhance quality and efficiency.

## Key Features

- Allows team members to collaborate and generate process improvement ideas.
- Board dimensions: 48"H x 32"W, made of Ultra Aluma-Lite™.
- Includes 1 dry erase marker and eraser holder: 4 ¾"H x 3 ⅝"W x 2"D.
- Use with dry erase markers to provide a list of action items along with completion dates, project owners and goals (dry erase marker set sold separately).
- Fields include Date, Action, Owner, Due.

## Benefits

- Visually document ongoing improvements that will result in significant long-term benefits.
- Create a positive culture where employees are empowered to suggest ideas and implement solutions.
- Increase efficiency, employee engagement and greater innovation and agility.

## Cause & Effect KPI-Boards

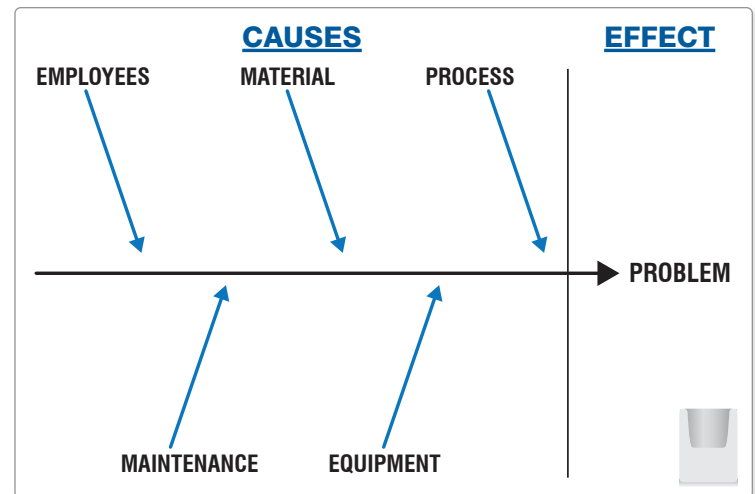

Cause & Effect Fishbone KPI-Boards help identify the root causes of a problem.

### Key Features

- Dry erase KPI-Boards available in 2 different designs.
- Board dimensions: 32"H x 48"W, made of Ultra Aluma-Lite™.
- Includes 1 dry erase marker and eraser holder: 4 3/4"H x 3 3/8"W x 2"D.
- Use with dry erase markers to visibly provide metrics and indicate goals (dry erase marker set sold separately).

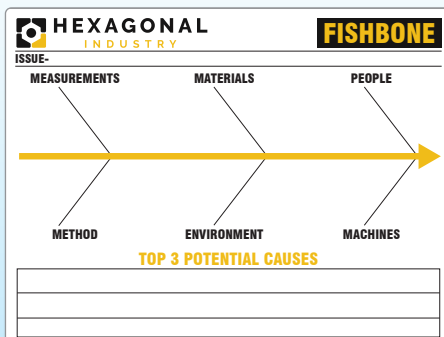

### Benefits

- Clearly define problems or issues that need to be addressed.
- Brainstorm, identify and categorize potential causes.
- Determine which causes are most likely to be at the root cause of a problem.
- Develop and prioritize solutions to address the identified causes.
- Implement and monitor the solutions to ensure they are effective.

## Chain of Events KPI-Boards

Chain of Events KPI-Boards focus on understanding the sequence of events leading to particular outcomes.

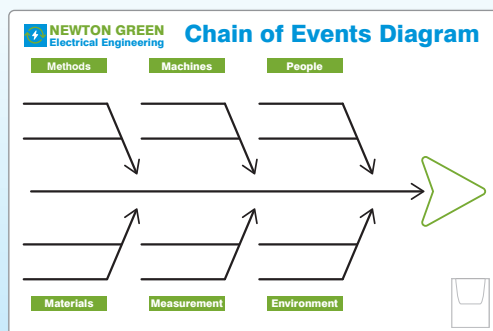

### Key Features

- Dry erase boards available in 2 different designs.
- Board dimensions: 32"H x 48"W made of Ultra Aluma-Lite™.
- Includes 1 dry erase marker and eraser holder: 4 ¾"H x 3 ⅝"W x 2"D.
- Use with dry erase markers to visibly provide metrics and indicate goals (dry erase marker set sold separately).

### Benefits

- Identifies potential hazards in a system or process.
- Helps improve risk management by providing a visual representation of factors contributing to a particular outcome.
- Provides a clear picture allowing for better decision making.
- Improves safety by identifying factors that could lead to hazardous conditions.
