FEATURING
MADGRIP
INJECTION TECHNOLOGY

ERGO IMPACT CUT

IDEAL FOR:

- Metalworking
- Oil & Gas
- Mining
- Demolition
- Maintenance/Repair
- Mechanical Services
- HVAC
- Mechanic's Work
- Construction

While these are the most commonly noted tasks, gloves are not limited to them.

ERGO IMPACT CUT FEATURING **MADGRIP™ TECHNOLOGY**

SETTING TOMORROW'S STANDARDS... TODAY.

Delivering superior dexterity to a traditional impact glove, MadGrip's Hybrid injection technology offers the added benefits of an impact glove at a fraction of the price. Our patented technology combines great dexterity with true back-of-hand protection and maximum breathability.

WORLD'S ONLY SEAMLESS GLOVE WITH INJECTION MOLDED IMPACT PROTECTION

MadGrip's injection technology™ uses a softer TPR than competitive processes, which allows for an enhanced ergonomic fit. At last, the combination of MadGrip's Injection Technology™ and different palm options to suit your specific application bring the best of multiple features into one glove.

FEATURES / BENEFITS

Light Impact Protection

- Back-of-hand, finger and metacarpal guards

Cut-Resistance

- ANSI Cut level A2 liner with ATA cut-resistant technology

Fully Seamless

- No glue, no stitching, anywhere

Dexterity

- Thin, washable, cut-resistant liner

Grip

- Grip dip for wet and dry applications

Breathability

- Durable, lightweight shell allows your hands to breathe

Tasks and Features/Benefits listed may vary depending on the palm material of your glove. Please consult with your sales rep for more info.
