INJECTION TECHNOLOGY

ERGO IMPACT

IDEAL FOR:

- Metalworking
- Maintenance/Repair
- Mechanical Services
- HVAC
- Mechanic's Work
- Construction

While these are the most commonly noted tasks, gloves are not limited to them.

SETTING TOMORROW'S STANDARDS... TODAY.

Delivering superior dexterity to a traditional work glove, MadGrip's Hybrid injection technology offers the added benefits of an impact glove at a fraction of the price. Our patented technology combines great dexterity with true back-of-hand protection and maximum breathability.

WORLD'S ONLY SEAMLESS GLOVE WITH INJECTION MOLDED IMPACT PROTECTION

MadGrip's injection technology™ uses a softer TPR than competitive processes, which allows for an enhanced ergonomic fit. At last, the combination of MadGrip's Injection Technology™ and different palm options to suit your specific application bring the best of multiple features into one glove.

FEATURES / BENEFITS

Impact Protection

- Back-of-hand, finger and metacarpal guards
- Fingertip pinch-point protection

Fully Seamless

- No glue, no stitching, anywhere

Dexterity

- Thin, washable, nylon/cotton liner

Grip

- Grip dip for both wet and dry applications

Breathability

- Durable, lightweight shell allows your hands to breathe

Durability

- Injection molded TPR bond won't delaminate or tear
- Palm more durable than leather

Tasks and Features/Benefits listed may vary depending on the palm material of your glove. Please consult with your sales rep for more info.
