71192603	3XL	Navy/Lime
71192819	4XL	Navy/Lime
71192637	5XL	Navy/Lime

UNDERSTANDING THE TEMPERATURE RATINGS OF YOUR COLD STORAGE THERMAL GEAR

The truth is, thermal ratings are a performance guide, not gospel—the best direction available through exhaustive testing and consideration of three major factors... insulation + activity + time.

YOUR COMFORT EQUATION

INSULATION CLO Value	+	ACTIVITY MET Level	+	TIME Duration
Insulation performance is measured by CLO rating:		When you're moving, you're creating heat.		This is the entire duration before breaks or removal.
Ergodyne Cold Storage Jacket, Bibs and Coveralls		2.59 CLO		
Ergodyne Cold Storage Gloves		1.30 CLO		
Down Jacket		0.55 CLO		
Birthday Suit		ZERO CLO		

WHAT IS CLO VALUE?
CLO is a value that describes the degree of insulation provided by an article of clothing. The higher the CLO rating, the warmer it will keep you.

ACTIVITY LEVEL: MODERATE WORK

DURATION LIMIT EXPOSURE – DLE

Activity level measured by Metabolic Equivalent of Task (MET). Light < 3 METs (Forklift driver, equipment operator, job foreman) Moderate 3-6 METs (Picking & packing, delivery, baggage handlers) Vigorous > 6 METs (Concrete work, oil and gas, tower climber)

In stock and ready to ship. Order today.
