

By Kimberly-Clark Professional®

Ready to take the next step towards Zero Waste?

The RightCycle™ Program can support your journey!

The RightCycle™ Program is the first and only manufacturer-led recycling program for non-hazardous PPE, flex-film packaging and wet cleaning wipes. It has helped more than 1,000 customers divert more than 4.5 million pounds of waste since 2011¹.

Eligible items include²:

Nitrile & latex gloves

Protective eye wear

Apparel, masks & accessories

Flex-film packaging³

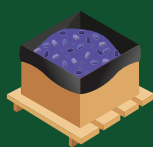

Wet wipes⁴

How it Works...

Kimberly-Clark Professional products are worn in your facility.

Used products and packaging are collected and shipped to our recycling centers.

Used products and packaging are sorted and processed into plastic pellets.

Materials are molded into new plastic products and durable goods.

The RightCycle Program is a groundbreaking service that turns used PPE and wet wipes into new consumer goods such as lawn furniture, benches and bicycle racks.

1. Source: 2022 WasteBits and 2022 Kimberly-Clark Corporation proprietary insights.

2. Items must be purchased from Kimberly-Clark Professional to ensure that they are suitable for recycling under the program. In addition, the products must not be exposed to hazardous contaminants or require special handling or disposal.

3. Flex-film packaging must be from Kimtech™ or KleenGuard™ products.

4. Applies only to eligible WypAll® WetTask™ SKUs (i.e., 06411, 06471, 58310) that are non-hazardous waste as classified by federal, state and local regulations ("Non-Hazardous Waste").

Implementation Made Easy

We support you to ensure success:

Activate with ease – we walk you through enrollment, every step of the way!

Generate excitement with an employee kick-off event that we can help organize.

All you need to do is:

Enroll in Wastebits* to generate a waste profile for each shipment and receive landfill diversion metrics.

Arrange for shipment with your own preferred vendor or through freightcenter.com that offers discounted rates for RightCycle participants.

Celebrate your accomplishments during Earth Month through PR and social media materials provided by Kimberly-Clark Professional.

Join us on this journey by participating in The RightCycle™ Program. It's easy!

For more information about recycling PPE, flex-film packaging, or wet wipes through The RightCycle™ Program, email RightCycle@kcc.com.

Our Commitment to Sustainability

Kimberly-Clark Professional and its parent company, Kimberly-Clark Corporation, aspire to be at the forefront of the transition to a circular economy by reducing waste, promoting waste-handling system improvements and innovating new ways of providing people with the products they need to live their best lives.

Our 2030 goals are aimed at doing just that – minimizing our impact on the planet and driving positive actions in response to the challenges and opportunities that lie ahead. This includes reducing our environmental footprint by 50% by 2030 and focusing on the areas where we can make the biggest difference – climate, forests, water and plastics.

Advance the well-being of 1 billion people

Reduce our plastics footprint by 50%

Reduce our direct emissions by 50% and value chain emissions by 20%

Reduce our natural forest footprint by 50%

Reduce our water footprint by 50% in water-stressed regions
