PRO PALM PLUS CUT

IDEAL FOR:

- Metalworking
- Material Handling
- Mechanical work
- Automotive
- Maintenance/Repair
- Flooring
- General Construction
- Masonry
- Plumbing/Piping
- Installation work

While these are the most commonly noted tasks, gloves are not limited to them.

PRO PALM PLUS CUT FEATURING MADGRIP™ TECHNOLOGY

WORLD'S BEST GRIP* AND IMPACT PROTECTION

Specifically designed for **maximum grip** to aid the professional worker, Pro Palm Plus injection molded gloves are contoured with the hand to allow for maximized **motion** and **dexterity**. The seamless construction lends itself to great **comfort** for all day on the job use. The grip combined with the **protection on the palm** prevents hand fatigue and blistering while maintaining maximum control of the task at hand, as well as offering improved **impact protection** in the knuckle area while maintaining maximum breathability.

The Pro Palm Plus enhances productivity with comfort, maximum grip, and abrasion resistance.

THE PRO PALM PLUS DELIVERS UP TO 5X** THE DURABILITY HANDLING RUGGED MATERIALS DAY IN AND DAY OUT.

FEATURES / BENEFITS

Fully Seamless

- No glue, no stitching, anywhere

Cut-Resistance

- ANSI Cut level A3 liner with ATA cut-resistant technology

Dexterity

- Enhanced ergonomic construction offers an unparalleled fit

Ultra Dry-Grip

- prevents hand fatigue and injury due to slippage
- Intentional finger patterns to maximize wet/oil grip

Durability

- Abrasion resistant palm more durable than leather
- Injection molded TPR bond won't delaminate or tear

Breathability

- Durable, lightweight shell allows your hands to breathe

Impact Protection

- Back-of-hand impact protection to prevent injury to knuckle area
- Impact protection on palm to prevent injury

*Internal testing of Grip performance vs. common industry work gloves, June 2013

**Internal application testing of abrasion performance vs. common industry gloves, June 2013
