

# ALWAYS HAVE THE RIGHT TOOL FOR THE JOB

Are broken or outdated tools slowing you down? Stop treating tools as consumables, and start maximizing your uptime and your buying power with StanleyBlack&Decker Total Tool Solutions.

## Level Up Production with Our Tool Trade Up Program

For example, when you upgrade from an 18V drill to a new 20V model, you not only get better performance but also the newest technology.

Save up to 20% using the Tool Trade Up program compared with buying the same tool new.

## Newer Tools, Better Warranties

MSC can help you protect your investments with maximized factory warranties like MSC Mech Tool Warranty and Proto Lifetime Warranty. When tools need to be repaired or replaced, you can potentially save thousands of dollars. You will also save on downtime with an MSC rep helping to educate you and your workforce about warranty options.
