

# TURN YOUR BAND SAW INTO YOUR COMPETITIVE EDGE

Get the most out of your existing band saw machines. Designed to drive maximum productivity, **LENOX ADVANTAGE** unleashes untapped potential with process optimizations and customizable digital solutions.

## Using Data to Drive Performance

**80%**

of facilities do not track Overall Equipment Efficiency (OEE)

**67%**

of facilities report uptime below 75%

Without an established baseline, your desire to improve your operations might lead you to buy new equipment or to add shifts to increase capacity—when you might not need to do either.

## Optimize with the Right Tools, Training and Maintenance Schedules

### Site Survey & 13-Point Inspection

Optimize performance with a comprehensive review of facility goals, metrics, challenges and bottlenecks from productivity specialists.

### Comprehensive Product Solutions

Improve productivity, increase throughput and lower total costs with a comprehensive range of sawing and fluid offerings.

### Customized Trainings

Increase operator efficiency and minimize downtime with a personalized program of on-site and online trainings.

The **LENOX ADVANTAGE** program helps you work as efficiently as possible by increasing asset utilization and minimizing unplanned downtime with a customized continuous improvement plan. **Contact your MSC rep today.**
