TO MAXIMIZE METALWORKING FLUID EFFECTIVENESS.

IT'S MORE THAN JUST OIL. IT'S LIQUID ENGINEERING.®

**MSC**

Authorized Distributor of Castrol®

# FREE COOLANT, SLIDEWAY OIL AND CLEANER

Dirty metalworking fluids can cause a host of problems for your operations, and can be harmful to machinists if not cared for properly.

Castrol's range of compatible coolants, slideway oils and machine tool cleaners help you focus on maintaining a clean metalworking operation. Let us show you how with a FREE two-month trial.

## COOLANT

Coolant is critical for reducing and removing the heat build-up in the cutting zone. It also provides lubrication to reduce friction between the tool and workpiece.

**CASTROL® ADVANTAGE:** High-quality coolants that resist breakdown, last longer, extend tool life and reduce waste disposal cost.

## SLIDEWAY OIL

Slideway oils provide friction control and often, end up in the coolant. Using a single supplier for both metalworking fluids can help limit compatibility and contamination issues.

**CASTROL® ADVANTAGE:** Slideway oils with good coolant separability properties to enhance the life and performance of coolants and allow machine tools to operate with optimal precision.

## MACHINE TOOL CLEANER

Machine tool cleaners provide precision cleaning of metalworked parts and remove solids, residue and nozzle buildup in the metalworking fluid system.

**CASTROL® ADVANTAGE:** Cleaners that help lower costs, boost productivity and contribute to a clean, safe workshop.

### CUSTOMER FAVORITES

#### COOLANT

Hysol® MB 50, semi-synthetic  
Syntilo® 9918, synthetic  
Almaredge® 420, soluble  
Alusol® SL 61 XBB, semi-synthetic

#### SLIDEWAY OIL

Magna® SW D, multi-purpose

#### MACHINE TOOL CLEANERS

Techniclean® MP Flex,  
heavy-duty alkaline
