Ansell Protects - A New Chapter in Sustainable Safety

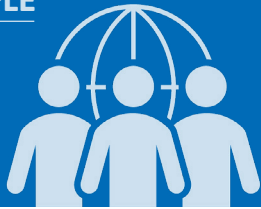

Ansell is putting People and Planet first and while we continue to provide unparalleled personal protection and industry-leading safety assessments, we are conscious of our duty to help build a more sustainable future.

The intention of this series of communications is to bring awareness to you, Ansell's partner in safety, with information that is good to know when having dialogues on sustainability.

What Sustainability Means to Ansell

Over the past couple of years, Ansell has accelerated efforts to lead the industry in responsible environmental, social, and governance standards. By continuing to explore new ways to operate sustainably and transform the business, Ansell's journey is constantly developing with the primary focus in these key areas.

PEOPLE

Employee health and safety

Labor rights

Recruitment and engagement

Diversity and inclusion

Community engagement and investment

PLANET

Energy and emissions

Climate risk

Water

Operational efficiency and waste minimization

PRODUCT

Innovation and product stewardship

There are many established goals and activities helping Ansell achieve a more sustainable future, more of which will be shared with you in the coming weeks. Until then, to gain a deeper understanding of how Ansell is making an impact, we invite you to read the Ansell Sustainability Report 2022.
