

ActivArm[®] The Power to Protect

OUR FIRST-TO-MARKET ULTRA-LIGHTWEIGHT ELECTRICAL RUBBER INSULATING GLOVE CLASS 00

These electrical insulated gloves combine an innovative ergonomic design with reliable protection from shock hazards to provide wearers with the ideal blend of comfort and performance. Designed to meet the applicable CSA, NFPA, and OSHA standards, these natural rubber gloves are your ideal safety solution for working with electrical or energized components.

- **30% thinner** when compared to the standard Class 00 rubber insulated glove while still providing the same level of protection
- **Enhanced comfort:** Ultra-lightweight design
- **Ergonomic design:** New form-fitting design helps reduce fatigue for enhanced productivity
- **Silicone-Free**
- **Electrical Protection:** Class 00 (500V AC/750V DC) protection
- **Special Resistance:** Acid (Category A), Ozone (Category Z) and very low temperatures (Category C)

Applications:

Energized Equipment, Electrical Contractors, Electrical & Hybrid Vehicle Manufacturing, Maintenance, EV Battery Manufacturing, Telecom

Target Verticals:

Automotive, First Responders, Electrical, EV Battery Manufacturing, Electrical Vehicles Manufacturing, Construction, Utilities, Janitorial/Sanitation, Automotive Aftermarket

Performance Standards:

EN 60903:2003

ASTM D120

EN388 (2010X): In-house testing

Arc rating: APC 1

(Box test -IEC 614821-2:2014)

Prop 65 Compliant

Material	Natural Rubber Latex
Dip	Fully coated
Type	Type I (Not Resistant to Ozone)
Color(s)	Black
Length(s)	11"
Cuff Style	Straight
Sizes	7-11
COO	Malaysia
Type	Class 00

Size	MSC Part Number
7	82851775
8	82851718
9	82851262
10	82851585
11	82851460
