

360-Degrees of Workplace Safety

From the front gate to the loading dock, we offer a comprehensive assortment of products to keep people and facilities safe.

A Growing Justrite Family

Justrite Safety Group consists of multiple industry leading brands that represent a product line of over 160,000 skus. We use our comprehensive knowledge of standards and regulations to provide product solutions the address present and potential safety issues—so your team can work with confidence.

**Whatever your needs, we can
help you build the foundation
of a safe, productive workplace.**

Parking Lot

In the parking lot, control the flow of traffic, designate areas, and welcome people as they approach.

Clearance Bars

Clearance Bars provide an early warning for motorists, reducing structural and vehicle damage. The clearance bars are constructed of high-visibility yellow polyethylene and are available in 72" lengths in either 5" or 7" outside diameter.

Bollard Post Sleeves

Eagle HDPE Bollard Post Sleeves make old bollards look like new. The post sleeves are designed to easily fit NPT pipe and eliminate the need for annual maintenance, while helping to protect vehicles and the post from impact damage. The unique design allows for easy slide-on installation.

Parking Lot

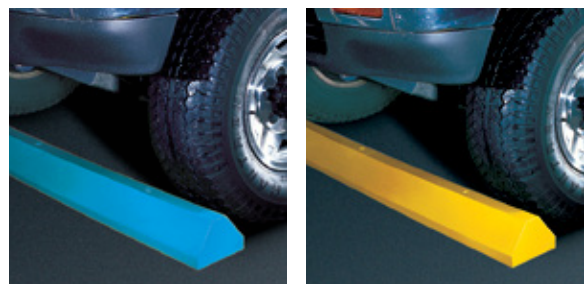

Speed Bumps

Checkers™ high-quality speed bumps and humps alert drivers to potentially hazardous driveways and parking areas or guide drivers to a safe and controlled speed. Bumps and humps slow down vehicle traffic in parking lots, keeping vehicles and pedestrians safe.

Parking Stops

Checkers™ recycled plastic parking stops replace unsightly, old, concrete parking stops and are made with 100% recycled solid plastic. They are maintenance free. The parking stops will not chip or crack like concrete and are built to withstand abuse from gas, oil, salt, sunlight, and chemicals.

Front Office

In the front office, welcome people, direct people, and minimize slips and trips. Make sure employees and guests know safety is important to the business.

Fastlane Drop-Over Cable Protectors

Checkers™ Fastlane® Lightweight Drop-Over Cable Protectors protect cables from pedestrian traffic and lightweight vehicles. Designed with a low profile to be lower to the ground to help with ease of traffic and reduce tripping hazards. Made from durable polyurethane and can be connected together to create any desired length. Perfect for office settings.

Outdoor Ashtrays

Justrite® Outdoor Ashtrays enhance your business image with an outdoor ashtray stand and keep your property free of unsightly cigarette butts. Self-extinguishing design safely collects unsightly cigarette butts and reduces the risk of fire.

Work Station

Support safe, clean, and organized workstations to help employees get more done.

Safety Cans

Justrite® Safety Cans and Containers offer safe storage for flammable liquids for workplace environments. With Justrite's safety cans, accidents and fire risks are minimized, protecting people and resulting in a safer workplace. Can models include type I, type II, type II, D.O.T., disposal, plunger, dispensing, bench, and rinse.

Sound Barriers

Justrite offers sound barriers as a solution to combat noise pollution. These innovative QuietSite™ Noise Barriers both absorb and reflect sound to reduce the perceived noise level (dBA). Our temporary sound barriers reduce common construction noises by up to half.

Industrial Waste Carts

Heavy-duty Eagle e-CARTs are wheeled industrial waste carts designed for immediate, reliable and portable waste needs. The ergonomically designed handles ensure easy maneuverability and excellent tip balance to place right next to the issue.

Safety Cabinets for Small Spaces

Safely store flammables near point of use to increase productivity. Use the transportable mini, countertop and compact cabinets when floor space is tight.

R&D Lab

An R&D Lab is an inherently dangerous place, with fire hazards, dangerous chemicals, and risky procedures. Protect lab personnel and reduce the risk of fire or explosions when using volatile liquids.

HPLC Disposal Cans

Justrite's laboratory HPLC safety disposal cans and containers feature quick-disconnect features and coalescing carbon filters to keep laboratory and personnel safe with a compliant, environmentally-friendly solution to waste collection. HPLC waste containers are ideal for vapor and fire protection, safeguarding against accidental spills, and maximizing safety and convenience.

Laboratory Dispensing Containers

Laboratory dispensing containers should be safe and easy to use. Justrite offers a number of containers and bottles to dispense of flammable liquids and solvents safely, without waste or exposure. Ideal for laboratory settings.

Safety Cabinets for Hazardous Materials

Our hazardous material storage solutions are ideal for research environments and laboratories that store hazardous chemicals, such as acids, bases, oxidizers, or toxic materials.

R&D Lab

Laboratory Carboys and Solvent Waste Systems

Use Justrite's® Laboratory Carboy and Solvent Waste Systems for the storage and dispensing of solvents, buffers, reagents and powders. Excellent chemical compatibility, interchangeable caps and adapters, and ergonomic design.

Biohazard Containers

Medical facilities, healthcare centers and research laboratories use biohazard waste cans for the safe, temporary storage of biological waste, contaminated laundry and other regulated waste (except for sharps).

Factory Floor

The factory floor is a busy place. Have the right safety products to protect people, material, machinery, and vehicles, as products are made.

Column Protectors

Column protectors from Eagle are affordable protection for warehouse and factory columns, posts and beams. Absorbs impact from tow motors, minimizing column, fork truck, and personnel damage and injury.

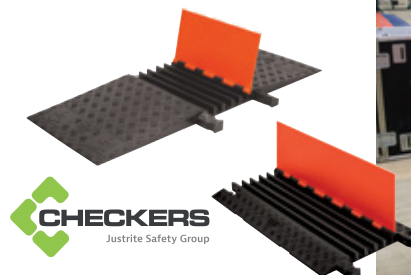

Bollard Posts

Poly Bollard Posts create a low-cost, maintenance-free caution zone that protects your facility and prevents damage.

Guard Dog® Cable Protectors

The Guard Dog cable protector series provides a safe crossing for vehicles and pedestrian traffic while protecting valuable electrical cables and hose lines and reducing trip hazard. Available in ADA compliant and low profile versions.

Factory Floor

Oily Waste Cans

Rags and cloths soaked with solvents, thinners, linseed oil, combustible adhesives, and other flammable liquids present a serious fire risk when improperly discarded. Use Justrite® Oily Waste Cans to safely disposing of oil-soaked rags. Liner bags available.

Spill Control

Justrite offers a comprehensive spill control and environmental portfolio to help meet SPCC and EPA regulations. Options include collapsible berms and structured spill containment products.

Eyewash & Safety Showers

Hughes eyewashes and safety showers offered by Justrite are designed to provide the first line of defense in the event of a dangerous splash or spillage from chemicals, dirt and debris. Making sure workers are able to rinse within 10 of 15 seconds of exposure is critical.

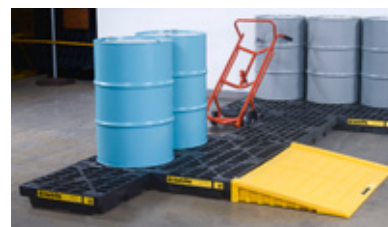

Storage Area

Safely store materials that are needed to get the job done. Just because hazardous materials may be out of sight, make sure safety is not out of mind.

Structured Drum Spill Containment Pallets & Platform Systems

Create a customized chemical or oil spill-control system with EPA-compliant spill containment pallets, accumulation centers, and caddies for drum storage, all composed of EcoPolyBlend™ recycled content. Safe and durable secondary containment.

Plastic Drums

Eagle's growing plastic drum product line handles both hazardous and non-hazardous material storage needs, including lab packs, overpack, and salvage drums with a variety of bands and lid styles. Ideal for safe storage, handling and transportation of hazardous materials, spill containment and cleanup of hazardous materials, spill kit containers, and biowaste disposal and incineration.

Drum Accessories

Justrite spill prevention equipment for handling hazardous materials includes drum faucets, funnels, vents, tip-over protection, and more. Our FM-approved drum faucets, with an internal flame arrester, and our FM-approved drum vents that offer pressure relief, safeguard against explosion.

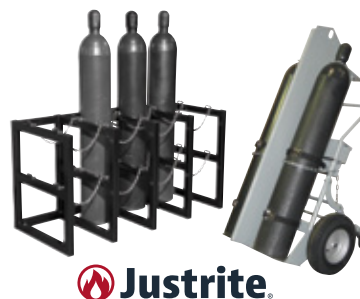

Storage Area

Gas Cylinder Storage Equipment

Use quality, heavy-duty Justrite gas cylinder products to avoid potential injuries and incidents when handling industrial, medical, and commercial gases. Gas cylinder storage racks, stands, pallets, cages, and hand trucks minimize your risk for accidents for transporting and storing gases.

 **Justrite**

Aerosolv® Aerosol Recycling Systems

Safely recycle with Aerosolv®, the original aerosol can disposal system with over 25 years of experience in helping environmentally-sensitive companies legally dispose of spent aerosol cans.

 **Justrite**

Safety Cabinets

Use Justrite® Safety Cabinets to store flammable liquids, corrosives, pesticides and other hazardous materials. All fire-resistant safety cabinets by Justrite meet fire codes and safety regulations.

 **Justrite**

Loading Dock

Provide safety for packages, people, and vehicles when unloading and loading shipments in the loading dock.

Ramps

Eagle ramps are constructed of high-density polyethylene and can be used to provide a method to move heavy loads over curbs or steps or for loading and unloading with hand trucks and dollies.

Dock Plates

Dock plates help provide a safe way to work around docks. For use with two- and four-wheeled dollies, hand trucks or carts, these lightweight, ergonomic design dock plates help reduce injuries.

Wheel Chocks

Checkers™ Wheel Chocks ensure a safe working environment while your vehicles are at rest. Made of highly durable, lightweight polyurethane, and offered in a variety of sizes and styles, our wheel chocks provide a safe chocking solution for a wide range of ground equipment, commercial, and military vehicles.

Outdoor / Rear of Building

Increase storage capacity of bulk chemicals with safe outdoor solutions for the rear of the building.

Aluminum Cylinder Lockers

No rust solution to storing liquid propane gas and compressed gas cylinders for welding applications, forklift fuel, and more.

 **Justrite**

Outdoor Safety Locker

Compliant, durable, weatherproof outdoor lockers provide safe and secure storage for hazardous materials, chemicals, and waste.

 **Justrite**

Berms

Berms from Justrite are secondary containment that helps you comply with EPA regulations and provides dependable spill control for leak-prone containers and equipment.

 **Justrite**

Outdoor / Rear of Building

Heavy-Duty Cable Protectors

Checkers™ Heavy-Duty Cable Protectors are amongst the most robust cable protection option in our offering. The Linebacker® and Yellow Jacket® cable protector series provide a safe crossing for heavy vehicles and pedestrian traffic, while protecting valuable electrical cables and hose lines and reducing trip hazard.

IBC Spill Containment

Reliable spill protection and safe outdoor storage for IBCs. Large leakproof sump exceeds regulations and protects against high volume spills. EPA compliant, supports SPCC.

STUD-E™

The Ultimate Workplace Safety Survey

What is STUD-E™?

Keeping workers safe is much more than PPE – it starts with recognizing potential risks and hazards. The Justrite® STUD-E™ Workplace Safety Survey assists in creating and maintaining a safe workplace by identifying vulnerabilities and risks.

Using our *proprietary, custom-built app* designed by safety engineering experts, STUD-E™ covers three general areas:

1 Identify Hazards

- Storing and transferring flammable liquids
- Slips, trips, and falls
- Spill control and containment
- Machinery and equipment
- Hazardous material management
- Hazardous waste storage areas
- Emergency safety equipment
- Extreme temperatures
- Noise
- Signage
- Hygiene and sanitation

2 Assess Risk

- Determine sources and processes causing risk
- Evaluate existing control measures
- Actions needed to control the risk
- Severity level
- Urgency of the risk
- Prioritization of risks

3 Control

- Help eliminate or minimize risk
- Substitute hazard with safer alternative
- Recommend engineering controls
- Administrative controls
- 5S Lean
- Process improvement

Cost Savings

STUD-E™ prioritizes critical safety issues while helping to balance the bottom line.

- ✓ Preventing compliance violations from OSHA and EPA
- ✓ Avoiding costly fines
- ✓ Preventing workers comp claims
- ✓ Lowering insurance premiums
- ✓ Enhancing process improvements
