INTRODUCING

Kimtech™ Polaris™ Nitrile Exam Gloves

COMFORT + PROTECTION

Kimtech™ is your partner in driving progress. As part of the 150-year-old Kimberly-Clark legacy of innovation, we're proud to present our next step into the future — Kimtech™ Polaris™ Nitrile Exam Gloves.

The proprietary high-quality nitrile formulation delivers the highest level of protection in the Kimtech™ exam glove portfolio. With protection, durability and comfort you can count on, these gloves are built for science, made for you.

Kimtech™ Polaris™ Nitrile Exam Gloves meet and exceed the industry standards for exam gloves.

More than double the strength of the industry standard, the Polaris™ glove has an average tensile strength of 31 Mpa (after aging).

Tested against some of the harshest chemicals in your work environment.¹

Designed for both strength and comfort. In a recent global study², more people preferred the Polaris™ glove over a leading competitive glove for overall comfort and strength.

Tested for use with Fentanyl and Simulated Gastric Acid per ASTM D6978-05.

Meets FDA food contact requirements set forth in 21 CFR 177.2600.

Does not contain silicone according to results obtained using test method SAE AMS 3819C.

Apex™

Change Made Easy™

The Apex™ Program is a complimentary training program that ensures a seamless transition to the Kimtech™ Brand of products in environments, such as advanced manufacturing, semi-conductor production, or research labs where personal safety and contamination control are essential. By effectively engaging employees, Apex ensures the protection of your process while enhancing efficiency and performance.
