

Harsh Chemical Resistant Butyl Gloves

Excellent Glove Protection against Skydrol for Aviation Maintenance and Mechanics

MCR Guard has been battle tested in conflicts around the world and offers excellent permeation resistance to most acids, aldehydes, alcohols, amides, bases, esters, and ketones. These gloves are produced domestically with a unique solution

dipped process. No other process can achieve such a tight molecular structure, the key to chemical impermeability. These chemical resistant butyl gloves are made with the finest Butyl rubber for outstanding protection.
