

The Efficient Workplace Program Helps an Industrial Manufacturer Reduce Costs and Improve Sustainability

case study

Problem

Workers were throwing away 3000 empty plastic buckets per year with the Brawny Industrial waterless wiper

The current waterless wipe was not cost efficient or environmentally responsible

In addition, due to the size of the buckets, the product took up valuable space in the company's vending machines

Countermeasure

WypAll* Waterless Cleaning Wipes:

A powerful and portable pre-saturated cleaning system designed for on-the-go tasks in which dry wiping simply isn't enough

Results

Not only did **WypAll* Waterless Cleaning Wipes** provide excellent cleaning, they helped the manufacturer to achieve:

- Cost savings of 36%
- Waste savings of 3000 plastic buckets or 1500 lbs of plastic from going to the landfill each year
- 2 times more space freed up in vending machines with refill packs instead of buckets
- 12% more wipers per bucket
