

Single Use. Broad Protection. PRO-SAFE[®] Disposable Clothing.

Benefits: PRO-SAFE[®] offers a comprehensive line of disposable, single-use clothing to keep you safe and comfortable. PRO-SAFE protective gear protects you against debris, dust and most chemicals, all at an exceptional value.

An economical alternative to washable garments and available in many styles, including coveralls, lab coats, smocks, shoe covers, aprons, bouffants, beard covers, hairnets and sleeves. They come in a variety of materials, including polypropylene, SMS and spun bonded polyolefin.

Polypropylene

Protection for those who work around dirt and grime

- Ideal, low-cost, disposable solution for hazardous and nonhazardous work environments
- Porous construction for added breathability and comfort
- Available with PE coating, for an economical measure of lightweight industrial chemical protection
- PE coating great for pesticide, asbestos, mold remediation, painting, light acid splash protection, and any wet general maintenance areas

SMS Fabric

Protection against numerous dry particles and water-based liquids

- Can be used in work environments where hazardous or nonhazardous contaminants may be present
- Features three tough layers to keep harmful contaminants out
- Outer layers: spun bonded filaments to withstand tearing and abrasion
- Inner layer: melt-blown polypropylene microfibers that filter out potentially harmful particulates and liquids. Air and water vapor pass through for superior wearer comfort and added breathability

Microporous Spun Bonded Polyolefin

Protection from dirt, grease, grime and light chemical splash

- General-purpose protective clothing that can be used where hazardous or nonhazardous contaminants are present
- Economical, lightweight, and breathable for added comfort
- Provides high-strength protection in all kinds of industrial applications
- Excellent barrier in light splash situations and against many dry particulates

Additional Disposable Clothing Options Available.
