

PRO-SAFE[®] Anti-Fatigue Mats

PRO-SAFE anti-fatigue mats are designed to reduce stress on joints and minimize back, leg, and foot fatigue. A well-designed anti-fatigue mat program improves workers' energy and productivity. Other benefits are improved morale and a healthier workforce.

THE ORTHOPEDIC ADVANTAGE

FEATURES:

- Ergonomic foam effectively suspends the body's weight, and reduces the impact on the joints. It works like a spring!
- Resilient and buoyant, our foam construction bounces back to the foot, alleviating discomfort and pain.
- Offers softness, support and better weight distribution.
- Surface texture and beveled edges for added safety.
- Made in USA.

WHERE ANTI-FATIGUE MATS ARE USED:

- Industrial work stations
- Service counters
- Cashier stands
- Assembly lines
- Hospitals and laboratories
- Distribution and Packing work cells
