Dual-Security Vending

The 800DS Vending System includes a compliment of full and mixed-security drawers, providing the ability to control products requiring different levels of secure storage using industry-proven solutions. It is ideal for easy deployment away from or in the absence of main tool cribs.

The 800DS provides the benefits that you've come to expect from a premier vending solution:

• Automated replenishment
• 24/7 system access through the web
• Comprehensive reporting and analytics
• Secure return capabilities
• Time-tested and proven technology

Web Based Software
Simply connect to the Internet via any web browser for system access anywhere, anytime.

Stock Management
Supports tool inventory management functions including issue and return, inventory adjustments, and cycle counts.

• Tracks the location of items by machine, job, and user.
• Provides audit trail of all item activity.

Searching and Selection
• Item selection using graphics/images or descriptions.

Replenishing and Reordering
• Replenishment orders generated automatically and electronically transmitted.
• Receipt and restock transactions are recorded by the software.

Comprehensive Reporting
• Comprehensive suite of standard and customizable reports; quick status view from the system dashboard.
• Reporting for MSC vending machines can be at the enterprise or individual point-of-use level.
• Reports generated and transmitted automatically or manually; can be exported, saved and/or transmitted in many standard formats including, but not limited to, Excel, Tab Delimited, Rich Text, and HTML.

Connectivity Requirements
• A dedicated Ethernet connection.
• A secure Internet connection.
• Adobe Acrobat Reader version 4.0 or higher.
