

Vendor Managed Inventory

MSC Inventory Management Solution

Overview

An MSC Vendor Managed Inventory (VMI) specialist helps you to manage your inventory and reduce the time you spend on the purchasing process – from purchasing to payables and everything in between. Leverage MSC's expertise in effectively managing inventory to provide you with a solution that yields more accurate inventory levels and reduces overhead cost by only having product on hand when you need it.

Ideal for

Customers who need to reduce time spent on the purchasing process.

Features

An MSC VMI specialist will scan your inventory and provide a recommendation for replenishing supplies.

VMI will eliminate transaction costs, manual data entry and paperwork utilizing MSC's online ordering system. MSC works with you to design a program that meets your specific procurement or replenishment needs. Your VMI specialist helps you identify, label and establish minimum and maximum inventory levels and reorder quantities, and is on site regularly to check inventory levels and conduct scans for inventory replenishment as needed.

Maintain your control by selecting your preferred method for the approval process:

- fax
- email
- shopping cart on mscdirect.com
- e-procurement
- blanket purchase order
